Good Afternoon,

Is there any word on if this voucher is correctly charged or needs to be moved? If its on the wrong site is there a time frame on when it will be moved to the correct site? I need to know what is going on as this is part of our ELMs project and will fall below the red line in a week. Thank you for your help.

Good Morning,

I don't know all I can see is that it was charged to the site Z9C3 - WILLIAMS B LEASE - E08913 and I requested documents under that site and received the documents (attached). If these charges are not on the correct site or have been mischarged they need to be moved to the correct site or refunded by Weston. This is the only charge I have ever had hit this site since June 12, 2012.

Doug,

See the emails below. I do not know why you have those charges associated with that FPN and Site, Weston did not even have the contract at that time.

Michelle - According to the START 4 records, EPS513020 invoice 3-A39 line in the amount of \$377.39 was for the below as submitted to RTP. If I recall correctly, that was one that Harry and Pete (issued the TDD) opened or try to open as OPA but ended up not being the case so later on we had to add AoA funds to START 4 TO3 to cover the invoiced cost. Full details about the site/response or what actually happened didn't make it my way. However, I'm not sure why is showing up that way on Doug records.

Harry – Hopefully the above will refresh your memory since I really don't know anything else about it.

Is this site familiar to any of you? It must have another name. Is this a Greka site?? Please assist in identifying the OSC, so CinFin can Bill for these old costs.

Thanks,

Good Afternoon,

I have looked for the POLREP for this site and am unable to locate one can you tell me who the OSC is so that I can send them a certification request for this bill and request a POLREP.
